

MY COVERAGE PLAN, INC.

32 N. Bassett St., Ste. 201, Madison, WI 53703 www.mycoverageplan.com

Application Developer

Do you want to use your development experience with development of web applications to affect change that makes a difference for real people? My Coverage Plan Inc. is seeking a mid-level engineer to join our growing healthcare software company in downtown Madison, WI. Our ideal candidate is a seasoned professional who can think fast and creatively to contribute to multiple layers of our projects, and address real-world problems with technical solutions. If you are an independent, focused Application Developer, with an interest in social justice and comfortable working with a team, we want to hear from you. Our company is a for profit subsidiary of ABC for Health, Inc. a nonprofit public interest law firm in Madison, WI. (www.abcforhealth.org). The Application Developer position will begin as an ABC for Health Inc. employee and governed by that firms policies and procedures, but the position is expected to transfer to My Coverage Plan Inc. sometime in the foreseeable future.

As a part of the MCP team, you will plan, research, test, develop and implement a variety of solutions. You can work independently with limited supervision and you have excellent time and deadline management skills for meeting deliverables. We require willingness to work with and report to a team in a collaborative environment. Strong analytical skills, excellent oral and written communication skills, ability to think strategically and act tactically are a must. We expect a positive “can do” attitude.

REQUIRED EXPERIENCE

B.S. Computer Science or equivalent experience.

EXPECTED SKILLS

Strong experience with OOAD. Strong experience with architectural patterns, especially MVC. Strong experience with Java. Experience with a modern version control system, such as Git. Experience with Java testing frameworks, such as Junit. Experience with Java automation frameworks, such as Ant and Maven. Strong experience with Typescript, JavaScript, HTML 5, and CSS 3. Strong ethic for producing readable, attractive, well-documented code. Experience with AngularJS. Experience with asynchronous communication protocols, especially Web Socket and REST. Experience with asynchronous communication methodologies, especially promises and continuation-passing. Experience with JavaScript testing frameworks, such as Karma. Experience with JavaScript automation frameworks, such as Grunt.

DESIRED EXTRA EXPERIENCE & SKILLS

Formal UI/UX coursework. Experience with AngularJS 2.0 Beta. Experience with Node.js and NPM. Experience with JavaScript data visualization frameworks, such as D3. Experience with other popular JavaScript frameworks. Experience with Avail. Experience with Nginx. Artistic capacity. Experience with computer-assisted design. Business and sales experience. Cognitive science, psychology, or other formalized insight into human behavior. Public speaking ability.

COMPENSATION & BENEFITS

Depending on experience/skills. Prefer contract work to start. Great fringe benefits and PTO provisions. Ideal candidate is located in the Madison WI area or is willing to relocate and is seeking a long-term position. We have a dynamic but relaxed workplace. Some work from home is negotiable. Negligible travel is required.

ABOUT THE COMPANY

My Coverage Plan is an early stage company building a patented decision support technology tool that optimizes healthcare coverage options. Our company is a for profit subsidiary of ABC for Health, Inc. a nonprofit public interest law firm in Madison, WI. founded in 1994 www.abcforhealth.org. We intend to replace our current prototype with a newly designed minimum viable product for internal and market testing in 2016. We expect to roll-out state-wide and potentially much wider over the next few years. We take pride in our organization’s mission and you will too.
